

Get your PhD in an international environment

KISD

Enter the world
of modern science

What do we offer at KISD?

- Participation in international programs leading to a double degree
- Work in global experimental groups (e.g. at CERN)
- Cooperation with foreign supervisors
- Access to internships at top foreign research institutions
- Taking part in international conferences and meetings
- Courses and collaboration in English
- Attending guest lectures delivered by visiting professors
- Bilingual KISD website, administration and support
- Scientific development in a multicultural academic hub

Internationalization - related programs:

- **NAWA STER** Internationalization of doctoral schools
- **NAWA PROM** International short-term academic exchange in selected KISD units
- **ERASMUS+** in selected KISD units

KISD won the “**Open to the World**” prize in the ProDok 2023 Doctoral Community Competition, organised by the National Representation of Doctoral Students
